

### PE Provision Money Received for PE=£8,110 total grant and £5,244 for this academic year.

Aim: The school plans to spend the money to develop the opportunities for the children to take part in inter school and intra school competition and to improve the outcomes of children by enhancing the CPD of teachers and ensuring high quality PE is developed in a sustainable way.

### Christchurch School s Sports Partnership £1,250 (SLA)

Mudeford Community Infants School has entered into a Schools partnership with other Christchurch schools. The Partnership has employed a School Sports Games Organiser based at the Grange Secondary School. Their primary role is to organise competitions for the Christchurch schools and CPD for teachers. The aim of this is that the training events will lead to the cascading of skills throughout the teaching staff therefore building a legacy of improved outcomes for children. Some of the money has also been spent on the supply needed to manage these events. Also at our school some of this money will be used to buy in specialist coaching to target those children who do not participate in activities out of school. We plan to deliver this at the end of the spring term/beginning of summer. Money will also be used to from the grant to pay for supply so appropriate members of staff can take children to the inter school competitions.

### CPD

The SLA will also allow Christchurch to set up PE CPD opportunities. Staff will be booked on relevant CPD activities with the focus at the beginning being on the least experienced members of staff. At corresponding staff meetings they will share key learning with the rest of the teaching team so expertise is shared. In the future the school will arrange for specialist coaches to work alongside staff members in a team teaching capacity. Supply for teachers to come out of class to attend CPD will also come from this budget.

### Consistent High Quality PE £1994

As part of our PPA delivery we use a HLTA who is a specialist in PE and she delivers high quality PE to all classes in years 1 and 2. The remaining of this figure will be used to ensure this continues as we find it the best way to ensure a consistent and high quality approach to delivery PE. Some of this money will be used to release this member of staff to manage the curriculum. In March 2014 we began to update our curriculum to embed the FUNS programme. This is a PE strategy that enhances the Fundamentals Of Movement which incorporates Agility, Balance and Co-ordination. It is a skills based program that develops the essentials of all sports. Children will learn their targets and know the next step. Our HLTA will do some team teaching to ensure FUNS is embedded.

### Equipment

The school is also spending approximately £500 on new PE resources for reception

Event	Cost	Outcome
Create Development-Funs for everyone-Physical Literacy for All. Rose de Souza (HLTA PE) and Jo Shale.	£200 for course £280 teacher supply cover £80 TA cover	Staff received trainings which will inform practice and develop skills. This is currently being embedded into the PE curriculum
SLA	£1250	Schools are able to offer children inter and intra school competition. A range of CPD activities has been set up.
HLTA to teach PE and support the embedding of PE. To team teach with teachers.	£1994	PE curriculum is developed and PE is taught consistently. Teachers skills develop
Buy more reception PE resources	£500	Provision improves
To pay for supply so staff can take the children to the inter school competitions.	£640	Children are able to attend inter school competition.

Total Spent-£4944
